

1 + 1 = Not enough \$ in your pocket

It happened again. Someone found out what they are *really* paying their current Financial Advisor (a.k.a middle man) and they weren't happy about it. It really bug us when you – the hard-working, penny saving, investor – pay a middle man a little bit more in fees each year and miss out on potentially massive returns over the life of your portfolio.

Here's to wise investing,
